

*Women have proven their worth in every field but are still viewed as an object and a target by perverts. There have been debates and discussions as to why is it so and why the problem continues to grow day by day. Are the laws not strict enough to provide deterrence? What is the root cause of such an attitude towards women, is it some kind of mental illness, a reflection of upbringing, or the result of some kind of socioeconomic frustration? There are no clear answers... and life goes on..*

*Internal Complaints Committee against Sexual Harassment at Maitreyi College has started a new e-magazine to elicit different viewpoints on these issues. Our goal is to spread awareness, extend support, and attempt to come up with solutions. I extend my sincere gratitude to all those who have contributed to or otherwise shown interest in this magazine. I hope to continue to get a similar response for the future issues as well.*

*My sincere thanks to Dr. Haritma Chopra, the Principal Maitreyi College whose faith and support gave us the strength to go ahead with this endeavor.*
