

MAITREYI COLLEGE

VISTA

THE PHOTOGRAPHY SOCIETY

ABOUT US

Vista - The Photography Society of Maitreyi College, is a team of passionate and talented photographers with skills and interests spread across photography, videography, and editing. Vista provides leeway to its members, to practice, learn and improve their photography skills. It also helps the members to expand their network and provides them exposure by showcasing their work on numerous platforms- online and offline.

We aim to provide comprehensive photography education, equipping students with essential technical skills, creative techniques, and industry knowledge. By fostering a dynamic and inclusive community, we encourage collaboration and mutual support among photography enthusiasts. Vista is a group of diverse storytellers.

We also focus on the professional growth of our members by offering workshops, networking opportunities, and mentorship to help them advance their careers. Along with this we also cover all the events that are organised on-campus. This helps our members gain hands on experience in the field of event management and event coverage which are two up and coming industries.

Lastly, we also put up stalls during college events and sell and promote our member's work. Vista provides a vibrant space where creative minds can engage, explore unique styles, and inspire one another in a supportive environment.

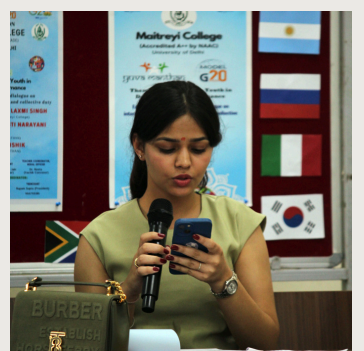

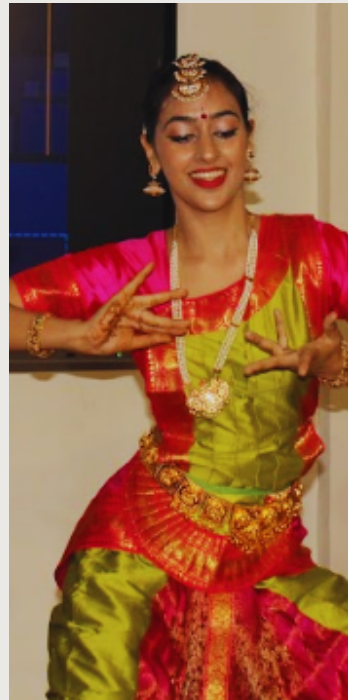

EVENT COVERAGE

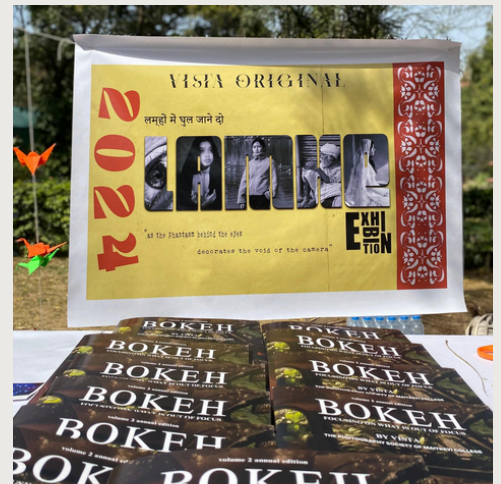

Beyond our primary focus, we also manage the photography for all on-campus events, giving our members exclusive opportunities to apply their skills in real-time. Since the college doesn't hire outside photographers, our students get firsthand experience in event coverage. This allows them to not only refine their technical abilities but also engage deeply with campus life. By documenting these key moments, they play a crucial role in preserving the vibrant spirit of our college.

GLIMPSES FROM OUR STALLS

We also have our own society magazine called "Bokeh". This publication, with four bi-monthly editions and one annual edition, is a testament to our members' talent and dedication. Available for free online through our magazine's Instagram handle and in hard copy at our college fest stalls, "Bokeh" has become a creative outlet for visual storytelling. Alongside the magazine, we sell prints of our members' work in various orientations, allowing students to showcase their artistic vision to a broader audience. The sale of these prints not only supports the society financially but also provides our members with valuable exposure, helping them understand the business side of photography.
