**EduLibrary**

## Our services

EduLibrary is a platform to help the students of the University of Delhi, pursuing graduation in Economics, for they not just face problems viewing the provided previous year's solutions that lack reliability but also witness lack of authentic sources to rescue them, leading them to get convoluted with wrong answers, missing diagrams and incomplete solutions. We are here to provide the students with previous year solutions that are not just reliable and elaborative but also verified by reliable sources, in exam specific format along with new blog updates relating to contemporary Economic issues.

*You have a doubt,  
we got a solution!*
